NETLOGIX SELECTED AS FINALIST IN AUT EXCELLENCE IN BUSINESS SUPPORT AWARDS

Netlogix has been selected as a finalist in the 2015 AUT Faculty of Business and Law Excellence in Business Support Awards.

Recognised for excellence in both the **Fuji Xerox Business \$20M+ T/O** and **Export Support** categories, Netlogix will join finalists across ten categories at this year's awards.

"The importance of excellent business support runs through everything we do in the AUT Faculty of Business and Law, from teaching to research to co-operative education and industry engagement," says AUT University Dean of Business and Law, Professor Geoff Perry.

Now into their tenth year the AUT Excellence in Business Support Awards are the only national performance measure for New Zealand business support organisations. Winners of the ten category awards and the supreme award will be named at a gala dinner on 29 October.
